

Product Information

ECO-MAT

Ultrasonic tank level gauge

The ECO-MAT is an ultrasonic tank level gauge with integrated GSM module.

The ECO-MAT is battery-powered, reliable and easy to install.

Measurement is done once an hour and data transmission to our evaluation software (tankmonitoring.net) once a day.

It is also possible to set a high-/ low level alarm and get informed via SMS or e-mail when reaching the level. The SIM card has to be integrated by the customer.

In standard mode, measurement is done once an hour and data transmission to our internet platform once a day.

Other modes are available on request.

Technical information:

- GSM/GPRS
- High level/low level alarm
- Battery status alarm
- measuring range: 20 cm bis 3 m
- Accuracy: +/- 1 cm
- Battery life: 2 years
- Thread: 1 ¼"; 1 ½" or 2" BSP
- Temperature range: -10 bis +50°C
- Protection class: IP67
- Available with or without external antenna
- Non EX
- PC Program available (www.tankmonitoring.net)
